Foreword

It is my pleasure to present to you this revised Service Charter for the Rwanda Education Board.

This Service Charter has been prepared in tandem with the Government's reform agenda and in the spirit of being responsive to effective service delivery, transparency and accountability.

This service charter spells out the role of the Rwanda Education Board and highlights the services offered and requirements therein. It lists the service centers at which our services can be accessed and the guiding legal instruments. However, not much has changed because this revision has come before the anticipated REB restructuring.

The development of this Charter signifies our commitment to serve our clients with a view of creating a better understanding and enhancing our service delivery.
